## PARKING

There is no designated parking at Aeolian; however we are always able to park easily – even in the busier summer months. On-street parking just across from the house is free and unlimited. If busy in high season, there is the option of parking in **Castle Square** (free) adjacent to **Castle Gallery** which is just round the corner from the house, alternatively there is additional parking just down the hill opposite **The Marine Hotel** (free). On arrival to unload your car we park directly outside with hazard lights on being as quick and mindful of other road users as possible. As the house opens onto the road please look after the safety of young children and there is a door chain for further safety.
